

FLSGA

November Newsletter

For those members still in the area, the clubs are put away as courses close. For those fortunate enough to head south for the winter, your clubs were probably the first thing you packed! Either way, winter time is approaching. It is time to ponder swing changes, buy a new club, purchase a training aid or store your clubs away and re-boot to get ready for the 2022 golf season.

The FLSGA is excited for 2022 with events planned both in the spring and fall. In addition, our website is now live and full of information. It will detail the dates, sites and costs of our events. The cost of our spring event is posted. It will be held at Blue Heron Hills Golf Club in Macedon, NY on Thursday May 26th at 10am under the direction of Jim Edmister the Head Golf Pro at Blue Heron Hills and Paul Bosdyk, the Club Rep. It will be a one-day individual stroke play event. We are still working on the details of our fall event, which will be held at Canandaigua Country Club. This will be a two-day event individual stroke play on September 7th and 8th under the direction of John Johnson, the President of FLSGA and Club Representative.

Our website also provides individuals the opportunity to join our organization if their club is a member of the FLSGA. This membership allows the individual to play in any or all of the FLSGA events throughout the golf season. We've also given you, our member, the means by which to complete forms and pay for both membership and event costs. We encourage all of our members to use the website means to complete those forms and make payments online as well (please note that due to our costs of providing such a means of paying online, we must charge a service fee back to our members). We will, however, continue to take membership forms and payment by check, if you so choose. See your Club Rep for those forms. Our web address is www.flsga.com. We encourage you to visit our site to see what we are offering. If you know of clubs in the Finger Lakes Region that may be interested in joining our organization, have them send an email of interest to flsga2020@gmail.com. If you wish to communicate with the FLSGA, please use the same email address.

Your Board of Directors is working hard to make your membership worthwhile. At our meetings, we are discussing and planning hoping to live up to your expectations.

We wish you and your family a Happy Thanksgiving.
